EAEC

European American Enterprise Council

(links to EAEC main page)

IFG in Collaboration with the EAEC promote Cross-Atlantic cooperation, collaboration and business between European and North-American private, public companies, institutions and economic development entities while fostering innovation, international trade, investment and entrepreneurship through commercial and business missions and a yearly event USA Week in Europe: www.usaweek.org. **(read more leads to below)**

IFG-EAEC goal and main focus of activity is to advise, support and assist both European companies wishing to establish themselves or invest in North America, and North American companies wishing to do business or invest in Europe by advising them (EAEC 3 R's services: Research, Revenue Acceleration and Recruiting Services), offering them access to the right distribution channels and decision-making ecosystems/hubs, leading them through the entire process, and helping them achieve their revenue and expansion goals.

IFG and European American Enterprise Council are run by leading executives and advisors with a broad experience and know how as serial entrepreneurs, business angels, heads of venture capital firms and/or C-Suite and EVP level executives. IFG-EAEC specializes and maintains a first-class network of relevant contacts in the areas of aerospace, air and space transportation technology, infrastructure (civil works, transport, railroad, electric), aerospace in the United States and Europe, both privately and at public regulatory entities and authorities level.

IFG-EAEC's team and its members offer a unique high level / high standard executive and cross-cultural network, with deep global-local or "glocal" experience and understanding of the key elements needed to reach business goals and desired ROI on business internationalization plans.

Companies' products and services are localized and supported wherever their main target markets are i.e. in leading US aerospace regions such as Florida and California, or in important recognized EU tech aviation markets such as Germany, Spain, France and Italy.
